FLOOR DEBATE

determination for that subset was correct. The provision in subsection (d) makes no provision for the determination for the broad category of land subclass, although it creates a presumption that a determination that the broad subclass was properly determined on page 7. That's the problem. It's internally inconsistent, Senator. And the other language, about the averaging and the weighting...adjusted weighted averages, appears to be only applicable to cash rents. If it's applicable only to cash rents, fine, but I believe that you also intended that it should apply to crop share leasing. The bill...the amendment doesn't say that and I don't think that you can imply that it applies, that it says that. And we're unable to determine exactly what the averaging methodology that you're proposing does, at least I'm unable to. That's not an attack on the bill, Senator Coordsen. I don't understand it and I think it's inconsistent, and I think we ought to strike subsection (d) and then go forward.
